

Report to the CCSESA Board of Directors

Steering Committee: Curriculum and Instruction Steering Committee (CISC)

Chair: Kathryn “Kitty” Catania (Fresno)

Date: December 2016

Focus Areas

- LCAP Template Training on November 15
- CCEE Training Support

LCAP Template Training

An LCAP Template Training was held on Nov. 15, with the training materials development led by Judy Flores (Shasta). There were approximately 244 participants from CISC/BASC/SPSSC that represented all 58 County Offices of Education. It was a stellar training that enables our county office of education members to conduct in-depth training with their districts.

Additional developers and presenters were:

Joost DeMoes and Lisa Gilbert (Kern)

Olivia Fuentes and Bonnie McFarland (Los Angeles)

Stephanie Hitchcock and Jane Steinkamp (San Joaquin)

Charlene Stringham and Martin Frolli (Tulare)

Gary Stine (Orange) Roger Rice (Ventura)

For the next training on December 8 we have 216 participants registered. The main topic is the ‘Technical Assistance’ requirements that the county offices of education will be required to provide to districts.

CCEE Training Support for the Statewide LCAP and LCFF Rubric Trainings

The California Collaborative for Educational Excellence held a ‘preview and feedback’ day for invited guests on October 19. Numerous CISC, BASC and CCSESA staff were in attendance to preview the CCEE training planned and provide feedback and suggestions for improvement. Josh Daniels from CCEE was very appreciative of the CCSESA support and incorporated the suggestions. As the CCEE conducted the trainings in Novembers, CISC and BASC members were at every location to help facilitate questions from the participants. CCEE also acknowledged several times during their presentation the appreciation of CCSESA members and directed the districts to utilize their county offices for ongoing support.
