In this experiential day-of-dance, participants will become familiar with the new California Arts Standards-Dance and consider how they can be applied in their schools and districts. School leaders—teachers, Visual and Performing Arts (VAPA) coordinators, and administrators will work together to create strategies for a progression of dance learning TK through 12th grade that meets the learning goals of your community.

Participants will move, think, problem-solve, and take on the perspectives of various constituents that can support or hinder the development of standards-based dance. Working in teams, the goal of this session is to recognize and access resources to make the potential of dance learning available to ALL California students.

Bring a team from your school or join other participants to create a new team for work-shopping possibilities - come prepared to move, think, engage!
