

### **Preview of Whole Child Breakout Sessions**

**Presenter(s):** Ed Manansala (El Dorado) and Brianna Bruns

**Item Type:** Informational

**Recommendation:** That the Board of Directors receive information regarding the General Membership Meeting's Whole Child Breakout Sessions.

**Background:** Superintendent Manansala will present on these investments in a Whole Child approach, and the immense responsibility that county offices of education play in the implementation. After this presentation, Superintendents will self-select into one of four breakout groups, each centered on one of the four community school pillars: (1) family and community engagement; (2) expanded and early learning; (3) integrated systems; (4) collaborative leadership. Superintendents will rotate once, visiting a total of two break-out groups. These breakout groups will be moderated by staff, and will answer the following questions:

1. County offices of education have been given new or expanded responsibilities for supporting these grants/ programs. How does your office plan to implement these new/expanded roles as part of your existing role in the statewide system of support?
2. As you hire staff and prepare to implement these new COE roles, how will you ensure that these staff coordinate with each other to support the whole child and community schools approach?

At the conclusion of the breakout groups, the group will receive a verbal update on the California Community School Partnership Program Statewide Technical Assistance Center.
