Changes and Updates to the Dashboard in 2022

Academic Indicator: Federal Participation Rate Penalty

- LEAs/Schools/Student Groups missing the 95% participation requirement means:

  ◦ Assignment of the Lowest Obtainable Scale Score (LOSS) for every missing score up to 95%

- California updated the penalty in 2020 due to a request from ED

Updated District of Residence Rules

- LEAs that send their Special Education students to schools outside of their district will be held accountable for them across all state indicators
  - District of Residence is also called the District of Special Education Accountability

Dashboard Alternative School Status (DASS)

- DASS schools were allowed "modified method" calculations on previous Dashboards for Academic, College/Career and Graduation Rate Indicators

- Starting with the 2022 Dashboard

  – ED: No modified methods allowed within indicator calculations

- CDE will calculate and display the 1-year graduation rate on the Dashboard (will be on the Dashboard in January 2023)

Support Determinations Will Still Use Dashboard Indicators

Every Student Succeeds Act (CSI and ATSI)

How Schools Qualify for CSI/ATSI:

1. All Indicators with the lowest status

2. All Indicators with the lowest status but one indicator of ANY other status

3. Five or More Indicators where a majority are at the lowest status

4. All Indicators in the lowest two statuses

Local Control Funding Formula

How LEAs Qualify for Differentiated Assistance:

- One student group in an LEA achieves 2 out of the 3 criteria below:

  - Lowest status for both *ELA* and *Math* **or** lowest status on *ELPI*

  - Lowest status on *graduation rate* **or** lowest status on *suspension rate*

  - Lowest status on *chronic absenteeism*
