

## **Curriculum Instruction Steering Committee Proposed Name Change**

**Presenter(s):** Jennie Snyder, CISC Chair (Sonoma)

**Item Type:** Action

**Recommendation:** That the Board of Directors approve the CISC's proposed name change to the "California County Educational Leadership Committee."

**Background:** In response to the direction of the Strategic Plan, the Curriculum and Instruction Steering Committee (CISC) developed new committee names that remove the word "steering." Considering the many changes that have impacted our educational system, the committee members found the renaming conversations to be an opportunity to recalibrate the purpose of the committee and its role in our educational system. Attachment A was used during the September 2022 CISC General Membership Meeting to engage members in the renaming discussions. Attachment B shows the summary (word cloud) of the words CISC members found best described the scope and content of CISC. The bigger and bolder the words appear, the more often they were mentioned by the CISC members. As a result of this process, the top four proposed committee names are listed below in rank order by the number of votes.

California County Educational Leadership Committee (18)  
Curricular and Improvement Services Committee (13)  
Educational Services and Support Committee (7)  
Educational Services and Systems Support Committee (7)
