RE: 2022 Dashboard and Differentiated Assistance Eligibility Release

The public release of the 2022 California School Dashboard went live late this morning and can be <u>accessed here</u>. The California County Superintendents made <u>the following statement</u> via President Dr. Debra Duardo regarding the Dashboard release and its implications.

The CDE released a press statement, <u>linked here</u>.

Some highlights of California's statewide data trends are linked here.

New this year, the CDE linked a <u>Dashboard Summary</u> in the press release. This summary provides an overview of the statewide findings, but also provides a link to the statewide list of eligibility (2022 LCFF Assistance Status file linked <u>here</u>), which is posted on the CDE's LCFF homepage linked <u>here</u>. We anticipate the media may hone in on this list and may have more questions about DA than they may have asked in the past.

The State Board of Education posted an Information Memorandum on differentiated assistance linked here.

In light of the significance of this data release, we hosted a huddle with all communicators earlier this morning to help them prepare to respond to these potential inquiries. Some of the themes from our discussion are captured here. Please do not

hesitate to contact Lindsay Tornatore (ltornatore@cacountysupts.org) or Kindra Britt (kbritt@cacountysupts.org) with questions.

Further resources are provided <u>here</u>.
