## A Weekly Update to County Superintendents of Schools

Wednesday, November 19, 2014

### **2014-15 LCAP Training Materials Ready for Use**

On Friday, November 14, the State Board of Education unanimously approved final spending regulations for the Local Control Funding Formula and a revised template for Local Control and Accountability Plans. Both the regulations and revised template had been the subject of broad-based review and input. The Board's action on Friday was expected and was praised by a wide range of groups including CCSESA, ACSA, Public Advocates, State PTA, CSBA, ACLU and Ed-Trust West, among others.

In anticipation of the regulations and revised template, leadership of CISC and BASC had collaborated on updating the LCAP Training Materials used by county offices to help support their school districts. A training on those updated materials is scheduled for tomorrow at the CISC meeting in Sacramento.

The training materials are an extraordinary resource. If you do not have staff attending the training tomorrow, or would like additional information about the training materials, please contact Efrain Mercado on CCSESA staff at [mercado@ccsesa.org](mailto:mercado@ccsesa.org).
