

Regional Leadership Sessions on Common Core State Standards Implementation

Policy Analysis for California Education

California County Superintendents
Educational Services Association

School districts across California have begun working to implement the Common Core State Standards and to prepare for California's new assessments. Policy Analysis for California Education (<http://edpolicyinca.org>) and California County Superintendents Educational Services Association (<http://ccsesa.org>) are pleased to sponsor six regional leadership sessions on CCSS Implementation. These meetings will introduce you to a variety of strategies, tools and resources that your district can use to support successful implementation of the CCSS. The sessions will feature local panels and examples of effective implementation, along with strategic advice on key issues including:

- Professional development for teachers
- Messaging and communications
- Investments in technology

The PACE/CCSESA sessions will be hosted by County Offices of Education in six regions of California, and broadcast live statewide. Space is strictly limited, so please act now to register for these important meetings. Access the link at <http://edpolicyinca.org/ccss> if you would like to register to attend or stream the session. Join school board members, district and union leaders from your region to learn more about the successful implementation of the Common Core State Standards.
